

OVAL-LOK FIELD STUDY

The results of our field analysis of the OVAL-LOK are visually presented below. Using existing parking meters and sign posts, while selecting locations near destinations frequented by bicyclists, the OVAL-LOK makes secure parking for bicycles entirely feasible in any metropolitan area.

In-Use Diagram

- A** Plenty of clearance for car doors opening:
- B** No obstructions to pedestrians
- C** Motorist has easy access to sidewalk and parking meter.
